- The top of the scoresheet is filled out when side and first service are determined. **Ignore triangles.**
- Troy wins first serve, so we mark the first serve for them. Troy submits lineup in serving order with #5, right back to serve first, then 12-28-3-99-7; Avon receives and shows #1, RF, as first server with lineups submitted and entered as shown above. Liberos are entered next to the team name.
- Troy #5 starts the game by serving a point. The starting time is entered, and the point is marked in the individual player number row and running score column.
- The next serve fails to clear the net. #5's service ends with a loss of rally (dash and bar), and we record a rally score (loss of rally) point for Avon by the next server, #1, and in team's running score. Since Avon received the point on a loss of rally while receiving, the point is boxed in both places.
- The libero enters for Troy #5, but we don't track this on the scoresheet.
- Avon #1 serves for three points (2, 3, 4) before Troy calls its first timeout. The receiving team time-out is recorded as "Tx" and Troy's time-out is entered with the score, 1-4.
- At the end of the timeout, Troy substitutes 11 for 3. Sx 11/3 is noted in the individual score, 3 is slashed and 11 entered in Troy's serving order, and substitute 1 is slashed for Troy.
- Avon's next serve is a loss of rally for Troy's point 2 which is boxed as shown above.
- Troy #12 serves two points (3, 4). On the next serve, a replay is called. "R" is entered. Troy serves another two points (5, 6).
- Avon's #6 slams the ball, and receives a yellow card. Y #6 (4-6) is recorded in Avon's comments section. There is no penalty point for a yellow card; "Px" indicates receiving team received warning.
- Troy serves another point (7) before a loss of rally (Avon point 5).
- Avon's #15 serves three points before a loss of rally. Ignore the triangle around service position 2. For points 6, 7, 8, ignore the triangle.
- Troy gets point 8 on the loss of rally. #28 serves out of bounds (Avon point 9).
- Avon's 50 subs for 2 (S 50/2) and serves five points (10 - 14) before losing the rally (Troy point 9).
- Troy's 11 serves but loses the rally. Position 4 is "triangled" on contact.
- Avon gets point 15 for the loss of rally. #9 serves one point before losing a rally (Troy point 10).
- Troy #99 serves two points (11, 12) before getting injured. #20 is substituted for #99 (S 20/99), team sub 2. #20 serves one point (13) before losing a rally (Avon point 17).

- Avon's #3 replaces #11 without proper substitution and attempts to serve. The scorer has the timer sound the horn when the serve is contacted because #3 is an illegal substitution. The wrong server violation costs Avon the rally and gives Troy point 14.
- Troy's #7 serves two points (15, 16). Troy's #28 then gets a red card, and Troy loses the rally on a penalty (P-1 followed by bar). Card recorded in the comments section. Avon gets penalty point P18.
- Avon's #6 serves two points (19, 20) before losing the rally. Since an entire rotation has been complete the next rotation - including Troy's rally point - should be recorded in red pen.
- Troy #5 serves a point (18). Avon's #6 is then issued a red card, giving Troy a penalty point (Px19).
- Troy's #5 serves another point (20), before Avon calls its first timeout (20-20).
- The next serve results in a loss of rally (Avon point 21).
- Avon's #1 serves point 22 before a loss of rally (Troy point 21).
- Troy's #12 serves two points (22, 23). Point 23 is now marked on the second line in the individual score for #12. Avon calls its second timeout (22-23).
- Troy's #12 serves long, giving Avon its 23rd point and the serve.
- Avon's #15 drops the service toss for a re-serve (R-S), and then serves point 24. The scorer notifies R2 that it is game point.
- Troy takes its second and final timeout (23-24).
- After the timeout, Avon's #15 serves, and a replay is declared.
- #15 tosses the next serve and lets it drop. A re-serve is awarded. On the re-serve, Troy wins the rally tying the score at 24.
- Troy's #28 serves for a point (25). Scorer notifies the R2 that it is game point. Troy loses the next rally (Avon point 25).
- Avon's #50 serves a point (26).
- Avon's #2 substitutes for #50 (S 2/50), the team's second substitution.
- Avon's #2 serves point 27, and Avon wins the game, 27-25.
- The scorer writes the final score below the running score column. The scorer records that the game ended at 6:34 pm. The R2 initials in the verification box. **Ignore numbers with triangles around them. These reflect libero serving - not legal for OHSBVA. Read as if no triangle.**
